

PNP Work Barge

KINGSTON, WASHINGTON

Pacific Netting Products designed, manufactured, and installed a 25' x 8' HDPE floating work barge for our own use at our headquarters in Kingston, Washington. The barge is equipped with a spacious work deck, moon pool, and A-frame for heavy lift operations. PNP's design is customizable and scalable to meet any need.

KEY FEATURES

- Highly stable on-water platform
- Spacious workspace
- Highly customizable
- Portable
- Heavy lift capability
- Infinite design possibilities
